## I. Background

### A. Procedural Background

1. On December 21, 2023, Allen D. Applbaum was appointed Receiver in United States Securities and Exchange Commission v. Jonathan Larmore, et al. (No. 2:23-cv-02470-PHX-DLR) for the receivership estate of the Receivership Entities (the ArciTerra Funds, the Receivership Defendants, and the known and unknown Affiliates of the Receivership Defendants as defined in ECF Nos. 77 and 154) (the “Receivership Estate”), including the Receivership Assets. The Receivership Order authorizes the Receiver to:<sup>1</sup>
  - a. Preserve the status quo to enable the Receiver to perform the duties specified hereunder.
  - b. Ascertain the financial condition of the Receivership Entities and Receivership Assets (as defined in the Receivership Order).
  - c. Oversee and manage, consistent with the relevant governing documents and applicable law, the Receivership Entities and Receivership Assets.
  - d. Prevent the encumbrance or disposal of the Receivership Assets contrary to the Receiver’s mandate.
  - e. Preserve the books, records, and documents of the Receivership Entities and Receivership Assets.
  - f. Manage litigation by and against the Receivership, the Receivership Entities, and the Receivership Assets.
  - g. Propose for Court approval a fair and equitable distribution of the remaining Receivership Assets.
  - h. Be available to respond to investor inquiries.
2. The Receiver, Allen D. Applbaum, is a Partner with StoneTurn Group, LLP (“StoneTurn”), and has more than 30 years of experience in litigation, investigations, business intelligence, corporate governance, receiverships, monitoring, and compliance. In connection with his management of high-profile investigations, Mr. Applbaum draws on his public and private sector experience to integrate investigative skills with technology and financial expertise to provide clients with seamless approaches to critical problems. Mr. Applbaum is a leading expert in independent monitorships and receiverships, providing oversight to the government, regulators, law enforcement and the judiciary. StoneTurn employs over 150 professionals who the Receiver can call upon for appropriate work.

3. The Receivership Order authorizes the Receiver to retain personnel and legal counsel, including personnel and professionals of StoneTurn and Archer & Greiner, P.C. (“Archer” or “Counsel”), to assist in carrying out his duties and responsibilities (“Receivership Team”).<sup>2</sup> StoneTurn’s team includes investigative, forensic accounting, real estate, forensic technology, data analytics, and corporate controller professionals. Archer’s team includes restructuring, tax, corporate, litigation, and real estate professionals. Since the appointment, at the direction of the Receiver, the Receivership Team has engaged in numerous tasks to fulfill its duties and responsibilities as authorized and directed by the Court.

## **B. Executive Summary**

### **i. The Receiver’s Actions Upon Appointment**

4. Following his appointment, the Receiver took immediate steps to assert control over the books, records, and accounts of ArciTerra and the Receivership Entities, and to oversee their accounting and cash management processes. As described in the Previous Status Reports, at the time of his appointment, the Receiver inherited a crumbling and neglected Receivership Estate, as Jonathan Larmore largely abandoned ArciTerra in approximately April 2023, if not earlier. Jonathan Larmore shut down ArciTerra’s office in Arizona and fired most of the employees, leaving the bulk of the management of ArciTerra to two remote consultants (Blaine Rice and Dan DeCarlo), one non-employee part-time bookkeeper, and one non-employee part-time office staff person at Fishermen’s Village in Punta Gorda, Florida.<sup>3</sup> Jonathan Larmore officially resigned from his position as Manager of ArciTerra on September 1, 2023, and Messrs. Rice and DeCarlo left or stopped providing services to ArciTerra in October 2023 and December 2023, respectively.
5. Since his appointment, the Receiver took the necessary steps to secure and preserve the Receivership Entities’ information systems containing e-mails, electronic files, investor management, accounting systems, digital images of certain computers used by former ArciTerra employees, and incoming postal mail. The Receiver has taken action to preserve relevant, newly obtained ArciTerra records, including the digitization of records from off-site repositories.
6. In addition, the Receiver, with the assistance of the Receivership Team, including a professional serving as the Receiver’s Chief Financial Officer, asserted control over dozens of bank accounts and ensured

that the appropriate signatories were installed, and others removed, as appropriate, and opened new bank accounts to facilitate financial oversight over the Receivership Entities.

7. The Receiver assumed more than 100 active litigation proceedings across the United States. These lawsuits include claims against ArciTerra, Jonathan Larmore and Receivership Entities, and seek monetary awards, foreclosure, and other damages, highlighting the fact that there are competing interests for the limited Receivership Estate. These matters generally are stayed, consistent with the Receivership Order.

## **ii. Management of ArciTerra Entities and Assets**

8. The Receiver developed an operating model, processes, and procedures to manage the operations and assets of the Receivership Estate, which includes at least 257 ArciTerra-related entities and 40 commercial properties, 19 of which the Receiver sold as of the date of this Sixth Status Report. The Receivership Team implemented financial and operational controls, as well as day-to-day business processes to support financial, risk management, and ongoing business operations.
9. In addition, the Receiver filed a motion to retain an accounting firm to prepare and file the necessary federal and state tax returns for the years 2022 and 2023. The Court approved the Motion to retain the accounting firm, SAX, LLP ("SAX") selected by the Receiver as a result of its selection process [ECF No. 264] to prepare federal and state tax returns and to perform other tax services.
10. As of July 31, 2025, after the closing of certain property sales as described below, the Receiver is actively managing 20 commercial properties, including:
  - a. Collecting delinquent and previously ignored rents, as well as current rents from approximately 96 tenants across 10 states.
  - b. Attending to tenants' concerns and those of city, county, and local governmental authorities.
  - c. Obtaining, monitoring, and renewing insurance coverage, including on properties where coverage had lapsed prior to the commencement of the Receivership.
  - d. Engaging with lenders and taxing authorities to address delinquencies and achieve forbearances or pauses and developing strategies for the maintenance or disposition of the properties.
11. The Receiver is currently in the process of evaluating 11 residential properties to determine the appropriate next steps.

### iii. ArciTerra Entities

12. The Receiver continues to assess potential additional entities or assets in which the Defendants or the Relief Defendants have an interest which are not currently part of the Receivership Entities or Receivership Assets, and where assets may have been commingled with Investor Funds. As a result of his analysis, the Receiver filed a motion to designate 18 additional entities on April 10, 2025 [ECF No. 332]. During this reporting period, the Receiver filed a second motion to designate three additional entities on June 4, 2025 [ECF No. 372]. These two motions remain pending with the Court. Please see Section IV for further details on these motions and the Receivership Entities.

### iv. Asset Disposition

13. Since the commencement of the Receivership, the Receiver has successfully completed the sale of 19 commercial properties through Court-approved sale processes. Of these, 17 properties were sold in 2024, generating total gross sale proceeds of \$73,220,929, satisfying \$48,228,850 in senior debt obligations, and resulting in over \$21,500,000 in net proceeds for the Receivership Estate. In 2025 to date, the Receiver successfully completed the sale two commercial properties, generating \$3,550,000 in gross sale proceeds, satisfying \$2,227,363 in senior debt obligations, and yielding \$960,979 in net proceeds for the Receivership Estate after closing costs and other fees.
14. Of the 19 properties sold, 11 were part of a Commercial Mortgage-Backed Securities ("CMBS")<sup>4</sup> portfolio. The CMBS portfolio consisted of 12 properties, including the 11 under the Receiver's control and one under the control of the Indiana Receiver.<sup>5</sup> While the Receiver was responsible for managing and disposing of 11 properties, the total sale price and satisfaction of senior debt obligations outlined above include all 12 properties due to their cross-collateralization<sup>6</sup> within the CMBS loan structure. These figures accurately reflect the overall disposition of the portfolio, as the collective sales contributed to the full satisfaction of the loan. However, closing costs and net proceeds are reported solely for the 11 properties under the Receiver's control. The disposition of this CMBS portfolio required close coordination with the Indiana Receiver, lender, and servicer to ensure a streamlined auction and sale

---

<sup>4</sup> Commercial Mortgage-Backed Securities are investment products backed by commercial real estate loans, where the loan payments are pooled together and securitized into bonds sold to investors.

<sup>5</sup> One property was managed by the Receiver in *Circle City Outdoors et al. v. ArciTerra Companies, LLC et al.*, pending in Hamilton County, Indiana, Superior Court as Cause No. 29D02-2305-PL-004542 (the "Indiana Receiver").

<sup>6</sup> Cross-collateralization is a financing strategy where a borrower uses more than one asset as collateral for a single loan. This can also involve using an asset that is normally used as collateral for one loan to secure multiple loans at once.

process, with the goal of fully satisfying the loan. Fully satisfying CMBS loans in today's challenging commercial real estate environment underscores the Receiver's ability to navigate complex transactions to maximize value for the Receivership Estate.

15. The Receiver and Receivership Team continue to identify and locate assets, liabilities, creditors, and investors in the Receivership Assets to protect the value of such assets, to ultimately satisfy claims against and obligations of the Receivership Entities, where appropriate and in due course, and according to a plan to be presented to the Court at a later date.

#### **v. Investor Fund Analysis**

16. As discussed in Previous Status Reports, the Receiver has substantially completed review of all 11 of the ArciTerra private investment vehicles through which capital was raised from third-party investors ("Investor Funds") in scope.<sup>7</sup> Based on the Receiver's analysis, he has concluded that ArciTerra, by design, used ArciTerra Strategic Retail Advisors, LLC ("ASRA") – an entity solely owned and controlled by Jonathan Larmore – as a central conduit and pass-through entity through which it consistently commingled investors' assets between Investor Funds, irrespective of their actual ownership structures.
17. Consequently, because of this pervasive commingling, untangling the transactions related to the Investor Funds has been extremely challenging, as is the determination of which cash flows should have been allocated to which Investor Fund. The Receiver believes that such analysis is unlikely to be able to be completed in a cost-beneficial manner. The Receiver will determine whether it would be appropriate to seek Court approval for consolidation, for purposes of distribution to creditors, investors, stakeholders, and other victims.
18. The Receiver's efforts to determine the amounts owed and available to distribute to investors are progressing despite the complications caused by ArciTerra's pervasive practice of cash commingling, and the Receiver had to analyze many transactions to determine which entities, Investor Funds, and creditors the cash and/or assets belong to.
19. The Receiver's ongoing analyses will determine whether potential causes of action could be brought against various parties or claims to assets could be made from which the Receivership may realize additional recoveries for the benefit of creditors, investors, stakeholders, and other victims.

---

<sup>7</sup> See Section II.E of this Sixth Status Report for the defined scope as it pertains to Investor Funds.

#### **vi. Claims Administration Process**

20. The Receiver developed and issued a request for proposal to establish a cost-effective claims administration process, including developing a web-based solution to intake claims related to investors, vendors, and other stakeholders. The Receiver solicited proposals from four qualified vendors. The Receiver reviewed proposals received and selected a claims administration vendor ("Claims Administrator") based on the firm's relevant experience and proposed fees. The retention of the Claims Administrator is subject to the Court's approval. The Claims Administrator is in the process of working with the Receivership Team to set up the claims processes and systems.

## **II. Actions Taken by the Receiver During the Reporting Period**

### **A. Website/Ongoing Communications**

21. The Receiver continues to update the ArciTerraReceivership.com website with key Court documents, news and updates, reports from the Receiver, answers to frequently asked questions, and other pertinent information including, in due course, the ability for investors, creditors and other stakeholders to submit claims. The Receiver also monitors and responds to inquiries and questions submitted through the dedicated telephone number (212-430-3488) and email address (receiver@arciterrareceivership.com).

### **B. Litigation and Third-Party Claims**

22. The Receiver has identified over 100 Civil Court cases pending against Receivership Entities, in which plaintiffs seek relief, including monetary damages. As set forth above, these cases highlight the risk that there are several interests competing for proceeds from the Receivership Entities. These litigations are generally stayed, consistent with the Receivership Order. These matters, to date, generally fall under three categories: (i) personal injury claims, (ii) non-payment claims, and (iii) other actions. The Receivership Team continues to monitor these matters and new matters as they arise, to determine how the actions impact the Receiver's mission.

### **C. Receivership Operations**

23. In this section, the Receiver reports on the execution of cash, vendor, and property management functions to support the operations of the Receivership, as well as providing updates on property sales and disposition strategies for commercial properties.

### i. Management of Commercial Properties and Operating Businesses

24. The Receiver categorized the Receivership Assets into groups (“Asset Groups”) for management and operating purposes. For instance, the Receiver grouped Receivership Assets that are members of the same real estate investment trust (“REIT”) into a single Asset Group. The Asset Groups, and the revenue-producing Receivership Assets that comprise each group, are as follows:

25. The Receiver is actively managing commercial properties and operating businesses. The Receiver sold 19 properties as of July 31, 2025. Additionally, one property in the KS State Bank Portfolio, ArciTerra FD Bowman SC, LLC<sup>8</sup> (“Bowman”), was sold at a pre- Receivership tax sale. After consideration and

<sup>8</sup> ArciTerra FD Bowman SC, LLC, is a Receivership Entity that previously owned and operated a single-tenant commercial property offering 8,011 square feet of retail space in Bowman, South Carolina. The property is currently vacant and was surrendered to a tax sale prior to the Receiver’s appointment. After careful consideration and analysis, the Receiver decided not to assert any claim to unwind the tax sale of the Bowman property. Any attempt to reclaim this property would incur costs that exceed the amount of funds available to the applicable Receivership Entity. The property holds very little value, and it is highly likely that it would ultimately

analysis, the Receiver did not assert any claim to unwind the tax sale, as any attempt to reclaim this property would incur costs that exceed the amount of funds available to the applicable Receivership Entity. After the disposition of 19 properties and the Receiver's determination on the Bowman property, 20 commercial properties and two operating businesses remained. Of the 20 active commercial properties in the Receivership Estate, four are single, or stand-alone, assets and 16 properties are cross-collateralized and syndicated with CMBS within multi-property portfolios. See **Exhibit 1** for a detailed list of all commercial and residential properties, including sold properties.

**a. Operating Businesses**

26. The two operating businesses, Village Brewhouse, a restaurant and bar, and Simply Sweet, a retail candy store, have separate management that oversee each business's day-to-day operations. Each business leases its premises from a third party. The Receiver exercises financial and operational oversight, including cash management, over each business. Village Brewhouse and Simply Sweet's bank accounts are controlled by the Receiver.
27. On May 31, 2025, the Receiver filed motions seeking approval for the auction and bidding procedures related to the sale of the Village Brewhouse [ECF No. 370] and Simply Sweet [ECF No. 369] operating businesses. The Receiver seeks to sell each operating business through an auction process designed to achieve the highest and best possible price subject to Court approval. For the Village Brewhouse, the Receiver reserves the right to designate a stalking horse bidder<sup>9</sup> and seek Court approval of stalking horse protections. In that instance, the auction procedures may be amended accordingly to reflect a modified sale process.
28. The Receiver anticipates undertaking the following steps and decision points for each sale:
  - a. **Website Launch & Initial Buyer Intake:** The Receiver will publish a dedicated landing page for Asset Sales on the ArciTerra Receivership website. Interested parties will be instructed to submit their contact information and upload a fully executed Non-Disclosure Agreement ("NDA").
  - b. **NDA Review & Data Room Access:** The Receivership team will verify the NDA and once approved, grant the interested buyer access to a secure data room.

---

revert to KS State Bank. Additionally, KS State Bank has a pending challenge to the sale. Lastly, there is a surplus amount from the tax sale that is being held by the taxing authority pending the resolution of the claims between the buyer and KS State Bank.

<sup>9</sup> A stalking horse bidder is an initial qualified bidder selected based on the value of the asset to be sold. The stalking horse and bidding procedures must be approved by the Court, and if higher bids are received at auction, the stalking horse may be outbid or win the sale if no qualified and better offers emerge.

- c. **Due Diligence Materials Provided:** Interested buyers will access due diligence materials including key business information such as the lease agreement, financials, sales brochure, photographs, and an Indicative Bid Form via the secure data room. The NDA and data room process will ensure that all potential interested parties will have access to the same information.
  - d. **Submission of Indicative Bid & Proof of Funds:** Buyers who wish to proceed will be required to complete and submit the Indicative Bid Form along with proof of funds and an executed asset purchase agreement for the purchase price.
  - e. **Bid Review & Reserve Price Determination:** The Receivership team will review all indicative bids submitted 10 days prior to the scheduled auction. The average of the qualified indicative bids will be used to establish the minimum reserve price for the auction of the business. Interested buyers will be required to submit a good faith deposit of 5% of the bid no later than five days prior to the auction.
  - f. **Auction Execution & Winning Bidder Selection:** The auctions will proceed with the predetermined reserve price. The highest and best offer ("Successful Bidder") at the close of the auction will be accepted. A back-up bidder will be identified as well. The Successful Bidder and the back-up bidder will be required to increase their deposits to 10% of the purchase price and execute the PSA.
29. On June 16, 2025, Michelle Larmore filed an omnibus objection to the Receiver's motions [ECF No. 385]. The Receiver's motions regarding the auction and bidding procedures related to the sale of the Village Brewhouse and Simply Sweet are fully briefed, submitted and pending Court approval as of the date of this Sixth Status Report.

***b. Commercial Properties***

30. In prior reporting periods, the Receiver successfully sold 18 commercial properties through Court-approved sale processes. For further details regarding these property sales, see Previous Status Reports. In this reporting period, the Receiver sold one additional commercial property through a Court-approved sale process, ArciTerra BP Olathe KS, LLC ("Bass Pro"), which closed on June 26, 2025. A summary of the Receiver's commercial property transactions from the inception of the Receivership is provided in **Exhibit 2**.
31. The sale of 14 properties<sup>10</sup> in the REIT 3650 portfolio is pending Court approval as of the date of this Sixth Status Report. The Receiver has also filed a Motion seeking approval for abandonment of a single-tenant retail building in Olathe, Kansas, owned by AT Olathe Outlot 5, LLC, a Receivership entity. There

are 7 properties remaining under stabilization and disposition review by the Receiver. Additional detail regarding the management, preservation, and disposition of commercial properties can be found in Section V of this Status Report.

## ii. Cash Management

32. The Receiver's cash management activities are tailored to each Asset Group. Because certain Asset Groups are subject to lender cash management agreements, the receipt and disbursement of cash is based on agreements entered between the lenders and the Receiver. For a summary of the various cash management strategies implemented by the Receiver, refer to Previous Status Reports, including the Fifth Status Report at Section II.C.ii.
  - a. *REIT 3650*. Of the 14 properties in the REIT 3650 portfolio, 12 are managed by the Receiver. Two properties are under the control of the Indiana Receiver. The Receiver performs cash management responsibilities exclusively for the 12 properties within the Receiver's control.
  - b. *Rialto REIT*. Of the 12 properties in the Rialto portfolio, 11 were managed by the Receiver prior to closing on December 23 and 24, 2024, while one property was under the control of the Indiana Receiver. The Receiver is in the process of completing final post-closing reconciliations for the 11 properties within the Receiver's control.
  - c. *KS State Bank*. Tenants of the occupied KS State Bank properties remit rent directly to the lender and are responsible for their own operating expenses. As a result, there is no cash flow or cash balances for the Receivership Estate associated with these properties.
  - d. *Non-REIT Commercial Property Entities*. The Receiver established cash operating accounts for each entity and accounts for rental receipts and operating expenses at the individual entity level.
  - e. *Operating Business Entities*. Each of the operating business entities has its own operating bank account that is used for the collection of business receipts (e.g., revenue) and payment of operating expenses. The Receiver's senior personnel conduct weekly meetings with the general manager of each business and review the financial and operating reports on a regular basis.
33. As previously reported, the Receiver opened insured fiduciary bank accounts with Western Alliance Bank to streamline and improve the cash management process. Western Alliance has significant experience working with receivership, bankruptcy, and other similar matters involving fiduciaries, and provides its banking services at no cost to the Receiver.

### iii. Vendor Management

34. The Receiver implemented processes for identifying, reviewing, approving, and paying vendor invoices. The Receiver's processes were outlined in Previous Status Reports, including the Fifth Status Report at Section II.C.iii.

### iv. Retention of Tax Accounting Firm

#### *a. Federal and State Income Tax Filings for ArciTerra Entities*

35. As reported in Previous Status Reports, many ArciTerra entities did not file the required 2022 federal and state tax returns prior to the Receiver's appointment. The Receiver learned from discussions with ArciTerra's prior tax accountants, CliftonLarsonAllen ("CLA"), that ArciTerra did not provide CLA with the necessary documentation for the 2022 returns and did not pay CLA's outstanding fees. Accordingly, CLA did not complete or file ArciTerra's 2022 tax returns. The Receiver understands, however, that CLA prepared and sent the necessary 2022 Forms K-1 to ArciTerra investors.
36. The IRS and various state agencies will likely assess significant penalties and interest fees against the ArciTerra entities for the unfiled 2022 federal and state tax returns. Furthermore, the lack of accurate and complete 2023 books and records require the Receiver to "reconstruct" the appropriate accounting records to prepare and file the 2023 tax returns.
37. The Receiver researched, solicited, received, and reviewed proposals from CLA and two other national accounting firms to prepare and file the necessary federal and state tax returns. After careful review of each firm's relevant experience, tax expertise, and proposed fees, the Receiver selected SAX to prepare the tax returns including for previously unfiled tax years. The Court approved the retention of SAX by order dated November 15, 2024 [ECF No. 264].
38. For an extended period of time, SAX, the Receiver, and CLA were in conversation regarding the transfer of historical tax data between the accounting firms so that certain tax returns could be prepared. In the interest of time, and to minimize cost and litigation risk associated with a potential action to enforce the turnover of information, SAX has begun manual data entry to prepare the tax returns.

#### *b. Corporate Business Registration Filings*

39. The Receiver continues to review and assess the ArciTerra corporate entities, and their respective state registration filings to ensure that all necessary entities are in good standing with their state regulators.

**v. Commercial and Residential Property Operations<sup>11</sup>**

40. The Receiver's work continues in accordance with the duties defined in the Receivership Order. The Receiver is managing the Receivership Assets and stabilizing cash flows from income-generating assets, including streamlining the rent collection process, paying real estate taxes and property vendors, negotiating forbearances, and analyzing properties and assets for disposition or further action.

**a. Commercial Property Operations**

41. The Receiver remains in contact with key commercial property stakeholders, including other receivers, to assist with the coordination of assets that were surrendered prior to the commencement of the Receivership. The Receiver is actively developing a disposition process for cross-collateralized properties under the control of other receivers, as well as the Receivership's assets, to maximize benefits for the Receivership Estate. Additionally, the Receiver is working with lenders and lenders' counsel to negotiate certain pauses, extensions, or forbearances as appropriate and coordinate asset disposition strategy for each property.

**b. Impact of Hurricanes Helene and Milton**

42. Hurricanes Helene and Milton severely damaged the Tiki Bar, which is Village Brewhouse's "satellite" bar on the beach area of Fishermen's Village. The Receiver undertook to rebuild the Tiki Bar to ensure that revenue continued to be generated from this Receivership Asset. The rebuild is now complete and the Tiki Bar re-opened in early July 2025 and is fully operational.

**c. Commercial Property Dispositions**

43. The decision to move forward with the disposition or sale of Receivership Assets is made by the Receiver, and if appropriate, upon consultation with the lender and lender's counsel, while subject to approval by the Court. The sale of any material Receivership Asset, including the engagement of any brokers for the sale of that asset, remains subject to Court approval. The results of the sale of 19 properties are summarized in the table below and in **Exhibit 2**, reflecting net proceeds to the Receivership of \$22,645,512 after repayment of secured debt and closing costs.

\*\*Closing costs include prorations, commissions, bank fees, escrow and title charges, property taxes, and liens where applicable. Closing costs also reflect the inclusion of auction rebate fees for properties sold over \$1 million.

#### **d. Other Receivership Asset Dispositions**

44. The Receivership Order compels parties noted in Exhibit C to the Receivership Order to remit to the Receiver all surplus proceeds after repayment of the lender and administration of the pre-existing receiverships. Five properties were sold and the Receiver and his Retained Professionals worked to assure that the \$1,729,125 in proceeds were remitted to the Receiver.
45. The Receiver has been in communication with other parties noted in Exhibit C to the Receivership Order, including other Court-appointed receivers of ArciTerra assets or entities. The Receiver expects additional proceeds to be remitted as other receivers dispose of assets under their control.

#### **e. Residential Property Operations**

46. As with the commercial properties, the Receiver's work with residential properties continues in accordance with the duties defined in the Receivership Order. The Receiver remains in contact with key residential property stakeholders such as mortgage lenders and their respective counsel to track the outstanding mortgage balances. The process for disposition or sale of residential assets mirrors that described above for commercial assets.

## vi. Property Management

### a. Commercial Property Management

47. The Receiver's property management teams continue to oversee the operations and maintenance services of the ArciTerra real estate portfolio per the requirements of the Receivership Order. Property management services are discontinued for properties that have been sold but remain in place for those still under the Receiver's control. The Receiver installed SVN Elevate ("SVN") on certain properties and Cushman & Wakefield ("Cushman") on others as property managers across the commercial property portfolio. SVN's services were formally concluded on June 30, 2025, due to changes in the KS State Bank portfolio disposition strategy and related discussions with the lender.
48. For further details regarding the property management services undertaken by the Receiver to stabilize the commercial portfolio and to ensure necessary property services and compliance with municipal requirements, see Previous Status Reports, including the Fifth Status Report at Section II.C.vi.
49. Other ongoing key commercial property management activities include:
  - a. **Comprehensive Inspections and Maintenance.** The Receiver continues collaborating with Cushman to collect and review monthly site inspection reports for each property. Monthly calls are held to analyze property reporting data, focusing on vacancies, lost rents, maintenance concerns, poor property appearance, tenant issues, and future capital expenditures, which inform Receivership budget projections. The Receiver further continues his work with Cushman – as well as tenants, contractors, and vendors – to address necessary repairs due to past neglect.
  - b. **Insurance Reviews.** The Receiver regularly performs insurance reviews for each property, and for the vendors servicing the properties, to ensure correct coverage amounts, insurer quality, and required additional insureds. The Receiver renewed general liability and property insurance for the commercial and residential properties that remain active in the Receivership as of the close of this reporting period.
  - c. **Leasing Activity.** The Receiver has engaged leasing brokers for properties in the REIT 3650 portfolio to support leasing efforts. Leasing activity across the portfolio remains ongoing as the Receiver continues to assess opportunities to maximize stability and occupancy.

## D. Record Preservation and Review

50. Since issuing the Receiver's First Status Report in June 2024, the Receiver has been managing the physical documents including logistics and scanning for review purposes.

51. The Receiver continues to review documents based on specific search criteria to identify information relevant to the ongoing work of the Receivership Team. The Receiver is using the information from key documents to support and enhance the Receiver's understanding of the state of ArciTerra at the time of the Receiver's appointment and to assist the Receiver with managing the ArciTerra businesses.

## E. Investor Funds Analyses

52. As reported in the Previous Status Reports, Section II.2 of the Receivership Order places responsibility on the Receiver to, among other things, ascertain the financial condition of the Receivership Entities and Receivership Assets, and to propose for the Court a fair and equitable distribution of the remaining Receivership Assets. To meet this mandate, the Receiver's work includes gaining an understanding of the structures, identifying investors, lenders, and other creditors, evaluating fees, and assessing the overall flow of funds to third parties and between Receivership Entities and Investor Funds. In addition, these analyses may allow the Receiver to identify suspect transactions and therefore other potential sources of recovery for creditors, investors, stakeholders, and other victims.
53. The Receivership Assets include 11 private investment vehicles through which capital was raised from third-party investors<sup>12</sup> (referred to throughout this Sixth Status Report as "Investor Funds"), generally through brokers. As the Receiver previously reported, his review focused on 11 of the 16 Investor Funds in the Receiver's scope.<sup>13</sup> The Receiver substantially completed the review of the 11 in-scope Investor Funds. The detailed analysis of each of the Investor Funds was reported on in the Third Status Report at Section II.E and in the Fourth Status Report at Section II.E.
54. **Figure 1** below is a table of all 16 in-scope Investor Funds which contains details about the number of investors, amounts raised, amounts paid, and the date the Investor Fund ceased operations, if applicable.
55. The Receiver is in the process of determining the amounts owed to investors (either Note Holders or Equity Holders). Consequently, the Receiver is not representing, nor should one conclude, that the difference between the total amount raised from investors (column E in the table below) and the total paid to investors to date (column F in the table below) equals the total amount owed to investors. The amounts reflected in the table below have been extracted from various contemporaneous ArciTerra spreadsheets. Unless otherwise indicated, these amounts have not been independently verified. The

<sup>12</sup> The term "investors," as referred to in this Sixth Status Report and Previous Status Reports, includes both equity holders and note holders and members who own units in the various Investor Funds.

<sup>13</sup> The Receiver identified a total of 19 Investor Funds, of which 16 of the Investor Funds are part of the Receiver's scope and 11 of which were the focus of the Receiver's Investor Fund analysis to date. A comprehensive list of the Investor Funds is provided at **Exhibit 3**.

Receiver has taken steps to validate these amounts, where appropriate, or as needed, to recalculate or determine the amounts owed to investors. The Report further outlines this process in Section II.E.ii.

56. The Receiver has prepared a summarized chronological timeline of significant financial events that mark the life of the Investor Funds based on his analysis of the Investor Funds as documented in the Previous Status Reports. The timeline illustrates certain key events under each Investor Fund.<sup>15</sup> See **Figure 2** below for the Investor Fund timeline (see **Exhibit 4** for a larger version of this timeline).

<sup>14</sup> Total paid to investors as of the inception of the Receivership (December 21, 2023) includes interest payments, dividend payments, and capital reimbursements, or a combination thereof.

<sup>15</sup> The REIT 3650 and Rialto portfolios are not reflected in the timeline (**Exhibit 4**), as they are not and were not Investor Funds, but rather refinancing/tax optimization tools. Some of the funds raised from these transactions

57. The timeline shows that:

- a. ArciTerra raised capital for the various Investor Funds during the period from 2006 to 2016. These raise periods for each Investor Fund are represented as the blue lines.
- b. Dividend and interest payments (represented by green lines) are sporadic and not consistent across the Investor Funds.<sup>16</sup> The fact that interest rates on notes for Note Funds II and III decreased during the period June 2010 through March 2020 is not visually reflected in the chart.
- c. Dividend and payments in the Investor Funds ceased (represented by the red lines) by early 2020, but for a number of the Investor Funds, dividend and interest payments stopped being paid prior to 2020. Some of the Investor Funds completed a refinancing (represented by the white triangles) or sold properties (of which the final property sale within the Investor Fund is represented by the orange triangles). Many of these refinancings or sales that brought cash back into the Investor Fund are close to the time dividends stopped being paid to the investors, or, in many instances, these events occurred when dividend or interest payments had already been discontinued for the Investor Fund and did not result in distributions to investors.
- d. While certain Investor Funds were closed<sup>17</sup> and capital was returned to investors, as reflected in the timeline, because of the commingling of funds, the source of funds that ArciTerra decided to utilize to pay these investors was not necessarily sourced from their respective Investor Fund, as documented in Previous Status Reports, but can be funded by other investors. For example, ASR Roswell/Cumberland investors were repaid prior to the sale of the asset, from other sources through ASRA.

58. The Receiver documented in the Previous Status Reports that cash coming in through these Investor Funds (via refinancings or sales of assets or through the use of other investor contributions) frequently did not originate from their respective funds' assets due to the pervasive commingling of cash through ASRA which increased significantly in 2015 and thereafter. Even when investors received repayment of principal and payment of interest and dividends, the Receiver discovered that, frequently, investors received payments from investments not associated with the Investor Fund in

---

were used to repay some investors (such as in the case of ASR Plainfield), without explanation as to why these investors were paid back their capital while others were not. See Section II.E of the Third Status Report and Section II.E of the Fourth Status Report for further discussion on this topic.

<sup>16</sup> For certain Investor Funds, earlier investors into the Fund began to receive quarterly distributions while the Capital Raise Period was still open.

<sup>17</sup> "Closed" refers to the date investors received their return of capital or were otherwise notified that the Investor Fund would cease operations.

which they were invested and that at the time the underlying investments could not support such payments.

59. In addition to the review of the Investor Funds, the Receiver has analyzed, and is continuing to analyze, other entities and ArciTerra real estate portfolios, such as Rialto, REIT 3650, and Palencia and Mercado, to which properties were transferred out of entities subject to Investor Funds.
60. In certain circumstances, the Receiver's analyses are subject to various bank records and other information not readily accessible. The Receiver has been and is in the process of identifying additional records and information and will proceed to obtain them by request or demand as necessary.
61. The Receiver is continuing to analyze the flow of investor money to and from the Investor Funds to assess what was received from and is owed to investors in the respective investment vehicles of the Receivership Entities and creditors.
62. In conducting these analyses, the Receiver is considering whether potential causes of action could be brought against various parties or claims to assets could be made from which the Receivership may realize additional recoveries for the benefit of creditors, investors, and other stakeholders.

63. The Receiver is continuing to assess potential additional entities or assets in which the Defendants or the Relief Defendants have an interest which are not currently part of the Receivership Entities or Receivership Assets, and where assets may have been commingled with Investor Funds. As a result of his analysis, the Receiver filed motions to designate additional Receivership entities, which are fully briefed, submitted and pending Court approval as of the date of this Sixth Status report. Please see Section IV for further details on the Receiver's motions to designate additional Receivership Entities.

### **i. Pervasive Commingling of Investor Funds**

#### **a. Summary of Observations from Previous Status Reports**

64. In the Previous Status Reports, the Receiver discussed and illustrated ArciTerra's common practice of paying expenses based on their urgency, with cash from the bank account of an entity with sufficient funds at the time the payment was needed, without regard to which entity incurred the debt or whether the cash came from an account from operating entities or from one of the Investor Funds. The Receiver also discussed his observations regarding how the transfer of available cash from one entity to another was facilitated through so-called "intercompany loans" between the entities borrowing and lending the cash from and through ASRA as the counterparty.
65. ArciTerra commingled money from operating entities owned by certain investors in Investor Funds with money from ArciTerra entities or affiliates unrelated to the Investor Funds. ASRA is owned by JMMAL Investments LLC ("JMMAL"), MML Investments LLC ("MML"), and Spike Holdings LLC ("Spike"), which are all owned by Wawasee Family Investments LP ("Wawasee"). Marcia Larmore and Jonathan Larmore are the general partners of Wawasee. The Private Offering Memoranda ("POMs") for the Investor Funds were located with contemporaneous organizational charts that lay out the ownership, capital, and cash flow structures for each of the Investor Funds. The organizational charts for the four largest funds neither show any ownership by ASRA of any of the entities, nor include ASRA in the Investor Fund cash flow structures beyond fees ASRA may earn as the manager of some of the other Investor Funds.
66. As reported in the Fourth Status Report at Section II.E.ii.b, the Receiver has performed an analysis of certain Investor Funds to understand how the payment of management fees occurred compared to the allowable management fees per the POMs and how the management fees were recorded in the books and records of various entities, including investments, funds, and managers. The Receiver recalculated certain fees, on a sample basis, according to the terms of the relevant selected POMs,<sup>18</sup> which were

---

<sup>18</sup> The Receiver identified certain fees contemplated in the POMs were not paid for certain Investor Funds. As an example, tenant improvement and construction management fees would not be paid if such activities did not

received in the selected Investor Fund's manager's general ledger (e.g., ASRA) and related bank statements, when available. However, the Receiver has not yet made any determination as to whether the managers of the selected Investor Funds were entitled to such fees, and while the Receiver could trace, on a sample basis, certain fees paid up to the manager level from the properties, the reverse is not possible because of ArciTerra management's inconsistent bookkeeping practices and lack of appropriate oversight.

67. The Receiver noticed the payment of unusual (i.e., large, rounded dollar amounts) and unsupported "Property Management Fees" from certain properties to ArciTerra Companies, LLC ("ArciTerra Companies"), which was managed by Jonathan Larmore.
68. As of this Sixth Status Report, the Receiver has not found:
  - a. Information to support whether, at the time when ArciTerra created the so-called "intercompany loans," the lending entity received equivalent value from the borrowing entity, or that the transactions were conducted at arm's length. It is also unclear whether such loans had economic substance. For instance, although ArciTerra recorded the loan balances when ArciTerra made a loan, it is not apparent that it considered whether the borrowing entity had the ability to repay the loan without receiving funds from other ArciTerra companies. This commingling process was partially documented in contemporaneous ArciTerra intercompany loan tracking spreadsheets reviewed by the Receiver.
  - b. Any documented policy that would have explained how decisions were made to prioritize satisfying debts of certain entities or vendors, or other third parties, over making distributions to certain investors, or how any such decisions would benefit investors.
69. The findings from the Receiver's analyses, combined with the determination of income and profit distribution or liquidation "waterfalls" from the various investment structures, will assist the Receiver in formulating a proposed distribution plan in due course, which is likely to take into consideration the impact of the commingling of funds. The commingling of so many entities' funds over an extended period of time will likely affect the determination of how the Receivership Estate will seek to satisfy claims, and at the appropriate time, the Receiver will develop a proposal to address creditors, investors, stakeholders, and other victims.
70. The Receiver's efforts to determine the amounts owed and available to distribute to investors are complicated by ArciTerra's practice of cash commingling. This practice has caused the Receiver to

---

occur. In another example, special disposition fees from the gross sales price of an investment were subordinated to unpaid preferred return and unrecovered capital contributions of the members; therefore, such fees would not be paid if no additional proceeds from the sale remained.

analyze many transactions to determine to which entities, Investor Funds, and creditors the cash and/or assets belong.

71. The Receiver is considering whether this pervasive commingling, among other things, could give rise to potential causes of action or claims from which the Receivership may realize additional recoveries, and which may also determine future distribution processes.

***b. Pervasive Commingling of Investors' Funds Through ASRA Renders an Analysis of the Funds Separately Very Difficult, Which Might Lead to Consolidation of the Funds Under the Receivership for Purposes of Distribution***

72. The Receiver confirmed the commingling findings made in the Previous Status Reports, including the fact that most related entity loans were not documented after 2015. In addition, there is no documentation as to whether the borrowing entities, including ASRA, had the ability to repay their debts, or whether the lending entities (affiliates or otherwise) received equivalent value when loans between related entities were extended.
73. ASRA was part of certain Investor Funds' organizational structures; however, it was not part of others, including the four largest Investor Funds. It is apparent, however, that beginning in approximately 2015, ASRA, by design, was used as a central conduit and pass-through entity to route most of ArciTerra's cash flows, irrespective of the source or the destination of the funds, in such a way which in most cases resulted in the obfuscation of the purpose of the transfers. ASRA acted as a lender to and borrower from related entities, of funds coming from properties, investors, and lenders, often without being part of the ownership structure of the Investor Funds, as further documented in the Receiver's Previous Status Reports.
74. Because of the pervasive use of, and reliance on ASRA as a conduit and pass-through for many cash transactions, the Receiver has concluded that investors' assets were consistently commingled between Investor Funds irrespective of their ownership structures. This conclusion is based on the Receiver's detailed historical review of the Investor Funds and analysis of discrete transactions such as fund raises, refinancings, property acquisitions, and dispositions as documented in Previous Status Reports. As initially presented in the Third Status Report, **Exhibit 5** provides a visual representation of ArciTerra's commingling.
75. The Receiver's analysis of the Investor Funds (discussed and illustrated in Previous Status Reports) consistently demonstrates that ArciTerra management:
  - a. Used funds from investors in one Investor Fund to pay those in other Investor Funds.

- b. Used proceeds of refinancing and sales transactions related to properties held in particular Investor Funds to pay unrelated investors, creditors, or entities outside of the Investor Fund ownership and cash flow structures.
  - c. Prioritized certain groups of investors over others without documented support from the provisions contained in the Investor Fund offering documents or other documents that could be located.
- 76. ASRA was used as a central conduit to facilitate many of these transactions which resulted in obfuscating the purpose of the payments, and priority of payments that would allow the Receiver to determine how much is owed to each investor group in their own Investor Fund silo.
- 77. Based on the Receiver's analysis and conclusions to date, certain investors were repaid their capital, in some Investor Funds, from proceeds of other Investor Funds, because of the extensive commingling through ASRA, creating an illusion of a profitable business.
- 78. Accordingly, this pervasive commingling for substantive cash deployment purposes, makes the untangling of the transactions related to the Investor Funds extremely challenging, as is the determination of which cash flows should have been allocated to which Investor Fund. As the Receiver has substantially completed his review of the in-scope Investor Funds, it is apparent that such allocation will be very difficult to reliably complete in a cost-effective manner. The Receiver will consider whether it would be appropriate to seek Court approval for consolidation or other treatment, for purposes of distribution.

## **ii. Determination of Amounts Owed to Investors**

- 79. In order to determine the amounts owed to investors, the Receiver not only has to (1) verify capital contributions, but also (2) verify return of capital (or repayment of principal for notes, if relevant), (3) verify interest payments on notes and dividends payments, and (4) calculate potential unpaid accrued interest or dividends, if and when appropriate.

### ***a. Validation of Amounts Contributed by Investors to Investor Funds***

- 80. During the previous reporting period, the Receiver analyzed and verified amounts contributed by the investors in the in-scope Investor Funds. Because of the large number of investors involved in the various Investor Funds, as well as the length of operation of many of these Investor Funds, the Receiver designed a statistical sample to verify the reasonableness of the amounts contributed by investors and noteholders. That sample was designed to verify the existence of contemporaneous ArciTerra records for more than \$128 million in capital contribution transactions across the 16 Investor Funds derived from ArciTerra analyses. The Receiver endeavored to locate, analyze and review supporting

documentation including, but not limited to, contemporaneous subscription agreements, W-9s, cancelled checks, account statements, etc., for each of the randomized sample selections in the investor population to confirm original investment details logged in various ArciTerra workbooks and understand whether that detail was accurate and representative of the supporting documentation.

81. As a result of this exercise, the Receiver concluded with a reasonable degree of statistical certainty that the capital amounts raised in the Investor Funds were supported by contemporaneous documentation and thus that the capital contribution amounts reflected in **Figure 1** above are reasonably accurate. Thus, the Receiver can conclude that there is adequate support for the proposition that ArciTerra raised the aggregate amount of \$128,406,961 from third-party investors in connection with the 16 Investor Funds.

***b. Estimation of Amounts Owed to Investors as of December 2023***

82. During this reporting period, the Receiver reviewed contemporaneous documentation and continued his analyses to verify repayments of capital and payments of dividends and interest, as well as calculated accrued dividends and interest based on his analyses of the Investor Funds (as discussed in Previous Status Reports). The Receiver has confirmed that the contemporaneous calculations of dividends and interest paid by ArciTerra were generally reasonable, when they were performed. That is not to say that such calculations represented all of the funds owed to investors. Based on the data analyzed by the Receiver and various assumptions made by the Receiver to date, the estimated funds owed to investors as of December 2023, may range between approximately \$113 million and \$217 million. The Receiver is in the process of developing models that will allow, in due course, the distribution of funds to investors.

**iii. Claims Against Third Parties**

83. As the Receiver continues to investigate the financial affairs of the Receivership Estate, the Receiver is mindful that there may be claims against the Defendants, Relief Defendants and others for substantial value transferred out of the ArciTerra entities at the expense of creditors, investors, stakeholders and other victims.
84. The Receiver's analysis includes the compilation of Receivership Entities' bank statements and analysis of that data, including identifying transaction counterparties, aggregating the net amount paid by and/or received from the counterparties, and determining and assessing the nature of the counterparties and the transactions between the counterparties and the Receivership Entities.
85. The Receiver will continue to compile and analyze the data and will identify claims and take action to the extent appropriate.

### III. Financial Status

### IV. Receivership Entities

95. The Receiver continues to independently research and assess corporate entities associated with the Defendants, and as applicable, Relief Defendants, and their relevance to the Receivership Estate. In addition, the Receiver's efforts to identify relevant corporate entities associated with and under the control of the Defendants that were not initially included as Receivership Entities or as Entities Subject to the Asset Freeze (Exhibits A and B to the Receivership Order) is ongoing. To date, the Receivership Team has identified approximately 100 previously undisclosed ArciTerra corporate entities affiliated with ArciTerra and/or Jonathan Larmore, that had not been included in the Exhibits to the Receivership Order.
96. As a result of his analysis, the Receiver filed a motion to designate additional Receivership Entities on April 10, 2025 [ECF No. 332]. The entities included in this motion that were not explicitly included in the Receivership Order are:

#### i. Commercial Properties

##### Closed Sales Summary and Receivership Financial Impact

From these proceeds, the Receiver satisfied senior debt obligations of \$50,506,213. These figures include one property under the control of the Indiana Receiver, which was part of a cross-collateralized CMBS portfolio. Closing costs for the properties under the Receiver's control totaled \$2,799,696, yielding \$22,645,512 in net proceeds to the Receivership Estate. See **Exhibit 2** for more detail on these sales.
102. The Receiver sold the commercial properties listed in the table below during prior reporting periods. Detailed summaries of the sale processes and financial outcomes can be found in Previous Status Reports. Each sale was conducted pursuant to Court approval, wherein the Court (1) approved the sale of the real properties free and clear of all liens, claims, encumbrances, and interest; and (2) granted related relief as appropriate.

<sup>20</sup> 3650 REIT Loan Servicing, LLC ("REIT 3650") is the special loan servicer for the lender, Wells Fargo Bank, National Association, as Trustee, on behalf of the registered Holders of CSAIL 2020-C19 Commercial Mortgage Trust, Commercial Mortgage Pass-Through Certificates, Series 2020-C19. REIT 3650 properties include secondary "Member" entity owners, tied to a mezzanine loan on the portfolio made by Quadrant Mezz Fund, LP.

107. **Overview.** The REIT 3650 Asset Group contains 14 total cross-collateralized properties across 9 states totaling over 500,000 square feet of commercial space. Two properties excluded from the Receivership are also part of the REIT 3650 Asset Group.<sup>21</sup>
108. **Lender Communications.** The Receiver continues to be in regular contact with the lender regarding stabilization, disposition, and loan servicing. The Receiver is engaged in negotiations with the lender to adjust payments and extend the terms of the loan, aiming to align with all parties' interests and financial commitments.
109. **Property Management.** Cushman continues to manage the properties, while the Receiver engages with leasing brokers to enhance stabilization efforts.
110. **Asset Disposition or Further Action.** On July 2, 2025, the Receiver filed a motion for sale of the REIT 3650 portfolio, seeking approval of the retention of Marcus & Millichap and the proposed procedures for the sale of the portfolio, including approval to use the sale proceeds to defease and satisfy the CMBS loan [ECF No. 394]. On July 16, 2025, certain limited objections to the Receiver's motion were filed by the mezzanine lender [ECF No. 399] and by Michelle Larmore [ECF No. 369]. The Receiver and the mezzanine lender agreed on a proposed order deferring issues related to the mezzanine lender's limited objection and filed a status report regarding the motion for the sale of the REIT 3650 portfolio on August 5, 2025.
111. Michelle Larmore has not agreed, as she had previously, to reserve all rights with respect to the substantive issues pending the sale so that the Receiver may proceed with the sale and defer any disputes. As articulated in the Receiver's replies [ECF Nos. 377 and 408], Michelle Larmore's limited objection is without merit and unjustifiably delays the sale process, jeopardizes the Receiver's efforts to sell the REIT 3650 portfolio's properties in a timely fashion, and puts at risk over \$11 million the Receivership Estates would save as a result of the Receiver's agreement with the lenders. The Receiver's motion (and objections and other challenges thereto) is fully briefed, submitted and pending Court approval as of the date of this Sixth Status Report.

**c. AT Olathe Outlot 5, LLC, Olathe, KS**

ArciTerra Entity	Address
AT Olathe Outlot 5, LLC	15085 W 119th Street Olathe, KS 66602

<sup>21</sup> Two properties are being managed by the Indiana Receiver. The Receiver remains in regular communication with the Indiana Receiver regarding the REIT 3650 Asset Group.

112. **Overview.** AT Olathe Outlot 5, LLC (“AT Olathe Outlot 5”) is a Receivership Entity that owns a 9,975-square-foot single-tenant retail building in Olathe, Kansas. This property previously went through a tenant improvement for a restaurant when the loan was originated but the prospective tenant never occupied the space, and it remains vacant.
113. **Lender Communications.** The Receiver is in communication with the lender regarding the abandonment of the property.
114. **Asset Disposition or Further Action.** The Receiver, after reviewing broker opinions of value prepared by reputable commercial real estate firms, determined that the loan balance significantly exceeded the current market value of the vacant building. Retaining the property would continue to impose costs on the Receivership Estate without the potential for recovery. In coordination with lender’s counsel, the Receiver concluded that abandonment was in the best interest of the Receivership Estate. Following the close of this reporting period, on August 14, 2025, the Receiver filed a Motion seeking approval for abandonment of the property [ECF No. 416], which is fully briefed, submitted and pending Court approval as of the date of this Sixth Status Report.

116. **Overview.** The KS State Bank Asset Group contains five cross-collateralized properties across three states totaling over 42,000 square feet of commercial space. Three of the properties are vacant; the remaining two are single-tenant properties. One of the properties was sold at a tax sale prior to the commencement of the Receivership.

117. **Lender Communication.** KS State Bank remains responsible for collecting rents paid by tenants at occupied properties. In November 2024, after consulting with brokers and reviewing broker opinion of values, the Receiver submitted an initial disposition plan to the lender for the auction and sale of the four properties in the portfolio. The proposal was structured to provide a fair distribution of proceeds to the Receivership Estate while addressing a portfolio of the outstanding debt, considering the valuations of the assets. The lender rejected the proposal and filed a Motion to Amend the Receivership Order [ECF No. 308], seeking to exclude the four remaining properties in the KS State Bank portfolio from the Receivership. The motion requests that KS State Bank be permitted to facilitate financing and a private sale of the occupied properties, or, alternatively, foreclose on and sell them, as well as foreclose on and sell the vacant properties. By agreement, the time for the Receiver to respond was extended. Following this, the Receiver engaged in discussions with the lender regarding a consensual resolution of the portfolio's disposition.
118. **Property Management.** As of June 30, 2025, the Receiver formally terminated the property management services of SVN in connection with the anticipated changes to the ownership and control of the portfolio. The Receiver provided notification of termination to both SVN and KS State Bank, consistent with the parties' ongoing discussions regarding disposition of the properties, which remains subject to the Court's review and approval.
119. **Asset Disposition or Further Action.** The Receiver is engaged in active discussions with KS State Bank concerning the disposition of the remaining portfolio assets. The Receiver and KS State Bank reached an agreement for the return of the properties to the lender via deeds in lieu of foreclosure. This agreement remains subject to negotiation and, once finalized, will be filed for the Court's review and approval.

Given the proximity of these parcels to another property within the REIT 3650 portfolio, the Receiver has determined that, subject to Court approval, it would be advantageous to auction these parcels concurrently with the REIT 3650 portfolio properties.

168. At the direction of the Receiver, Watercraft #3 has been serviced and will be listed for sale imminently.
169. The Receivership Team continues to identify other assets included in the ArciTerra Estate and to physically locate other known assets to bring them into the Receivership Estate.

## VI. Claims

170. As the Receivership progresses, the Receiver will implement a mechanism to validate claims, determine their eligibility and compensate eligible claimants subject to Court approval of the filing and distribution process.
171. In addition, the Receiver is working to identify potential claims to assets currently outside of the Receivership Estate, or against third parties.

### A. Claims Processing and Administration

172. The Receiver is in the process of identifying liabilities from the books and records of the Receivership Entities and identifying potential additional liabilities that may result in claims.
173. The Receiver developed and issued a request for proposal to establish a claims administration process including developing a web-based solution to intake claims related to investors, vendors, and other stakeholders. The Receiver solicited proposals from four qualified vendors. The Receiver reviewed proposals received and selected a Claims Administrator based on the firm's relevant experience and proposed fees. The retention of the Claims Administrator is subject to the Court's approval. The Claims Administrator is in the process of working with the Receivership Team to set up the claims processes and systems.

### B. Potential Liabilities to Creditors and Claims Against Parties

174. As the Receiver investigates the financial affairs of the Receivership Estate, the Receiver is mindful that there may be claims against the Relief Defendants and others for substantial value transferred out of the ArciTerra entities at the expense of creditors and investors. The Receiver will analyze and identify these claims and take action to the extent appropriate.

## ii. Claim to Airplane Proceeds

177. In the Second Status Report, the Receiver explained that the Receivership has a claim to a portion of the proceeds from the sale of a plane sold on August 18, 2023 (see Section VI.C.ii of the Second Status Report). This claim is unchanged.

## iii. Litigation Claims of the Receivership

178. The Receiver will bring actions and legal proceedings against various parties on behalf of the Receivership Estate in the future, as allowed and contemplated for in the Receivership Order at paragraph 24, if warranted. The Receiver assesses the cost/benefit of asserting claims, as investigations and litigation are costly endeavors and the Receiver does not intend to expend Receivership assets unless there is a supportable claim and a high likelihood of recovering funds.

## VIII. Future Actions and Recommendations

- 180. The Receiver's work continues in accordance with the duties laid out in the Receivership Order. The Receiver is managing the Receivership Assets and stabilizing cash flows from income-generating assets, paying real estate taxes and property vendors, and analyzing properties and assets for disposition or further action. The Receiver will continue to manage the real estate of the Receivership and will continue to entertain viable acquisition offers for all or part of the Receivership Assets.
- 181. As a result of his analysis, the Receiver sought relief with respect to certain entities and intends to seek relief with respect to others in the exercise of his fiduciary duties.

- 183. The Receiver continues his analysis of the Receivership Entities, including:
  - a. Continuing to trace and analyze relevant transactions through books and records, including bank accounts to (1) establish how much may be owed to investors, and (2) identify any funds related to improper transactions that the Receiver may potentially recover to address investor and creditor claims.

- 186. The Receiver intends to continue to seek Court approval of his actions going forward, as necessary and appropriate under governing law and the Receivership Order.
- 187. Based on the Receiver's work as described above, the Receiver recommends that the Receivership continue consistent with the Receivership Order. The reasons for continuing the Receivership include:
  - a. **ArciTerra Operations.** The Receiver is actively managing ArciTerra and related entities and properties, as detailed above. The nature of the Receivership Entities requires the ongoing management of the properties and corporate entities.
  - b. **Analysis to Determine Investor Obligations.** The Receiver's conclusions concerning the pervasive commingling of so many Investor Funds entities through ASRA may affect the determination of how the Receivership Estate will satisfy future claims. The Receiver intends to make a proposal to address claims of creditors, investors, and other parties.
  - c. **Asset Disposition.** The Receiver, in accordance with Paragraph 6(N) of the Receivership Order, will continue to prepare real property and other assets, as appropriate and approved by the Court, for sale or further action.
